This Limited Offering Memorandum contains brief descriptions of, among other things, the Bonds and the Project. Such descriptions do not purport to be comprehensive or definitive. Certain information with respect to the Borrower and the Guarantors including projections with respect to the Project is attached hereto as APPENDIX A. The audited financial statements of the Guarantors are attached hereto as APPENDIX B. A market feasibility study for the Project is attached hereto as APPENDIX C. Summaries of the principal financing documents are attached hereto as APPENDIX D. The proposed form of opinion of Bond Counsel is attached hereto as APPENDIX E. During the period of the offering, copies of such documents may be obtained from Oppenheimer & Co. Inc.. The description herein of the Bonds is qualified in its entirety by reference to the form thereof included in the Indenture and the provisions of the aforementioned documents.

Security and Sources of Payment for the Bonds. The Bonds are limited obligations of the Issuer, payable solely from and secured by (i) amounts paid by the Borrower under the Loan Agreement to the Issuer and assigned to the Trustee, (ii) an assignment of all of the Issuer's rights (except for certain limited rights of the Issuer) under the Loan Agreement, and (iii) a pledge of and security interest in any right of the Issuer in and to all moneys and investments held in the funds and accounts established under the Indenture (excluding the Rebate Fund). Risks to Bondholders. These Bonds have risk characteristics that require careful analysis and consideration before a decision to purchase is made. Investment in the Bonds carries a substantial risk with respect to the payment of principal and interest. The generation of sufficient revenues to pay required debt service on the Bonds is dependent upon a number of different factors. See "RISKS TO BONDHOLDERS" herein.

Continuing Disclosure. The Bonds are subject to the requirements imposed by Rule 15c2-12 of the Securities and Exchange Commission. The Borrower has agreed, pursuant to the terms of a Continuing Disclosure Agreement, to provide certain ongoing information to Bondholders regarding operating and financial information. The Issuer, however, will not provide or cause to be provided such ongoing information. See "CONTINUING DISCLOSURE" herein.

Tax Matters. Bond Counsel will deliver an opinion in substantially the form attached hereto as APPENDIX E providing that, subject to continuing compliance with certain requirements of the Code, interest on the Bonds is excludable from gross income for federal income tax purposes. Interest on the Bonds is not exempt from income taxation in the State of Illinois.

No Rating. No rating has been sought or provided for the Bonds. This may adversely affect the ability to transfer or otherwise sell the Bonds in the secondary market. See "RISKS TO BONDHOLDERS – Lack of Rating and Market for the Bonds" and "NO RATING" herein.

Capitalized Terms. Capitalized terms which are used in this Limited Offering Memorandum and not otherwise defined herein shall have the meanings specified in the summary of the Indenture set forth in APPENDIX D hereto.

Additional Bonds

One or more series of Additional Bonds may be issued on a parity with or subordinate to the Bonds, and may be authorized and delivered for the purposes of completing the Project, modifying, refurbishing, upgrading or adding to the Project or to refund any Bonds, at the discretion of the Issuer. (v) A supplement to the Leasehold Mortgage reflecting that the Leasehold Mortgage secures the Additional Bonds.

(vi) An opinion of Bond Counsel to the effect that (1) the issuance of such Additional Bonds will not adversely affect the tax exempt status of interest on the then Outstanding Bonds and (2) such supplements to the Indenture and the Loan Agreement have been duly authorized, executed and delivered by the Issuer and constitute the valid and binding obligations of the Issuer.

(vii) An Opinion of Counsel to the Borrower and to the Guarantors to the effect that the supplements to the Loan Agreement and the Guaranty have been duly authorized, executed and delivered by the Borrower and the Guarantors, respectively, and each constitutes the valid and binding obligation of such party.

(viii) A written request of an Authorized Issuer Representative to the Trustee to authenticate and deliver such Additional Bonds.

(ix) In the case of Additional Bonds issued for purposes other than to refund Bonds, a written report prepared by a nationally recognized feasibility consultant acceptable to the Trustee stating either:

(A) that the Historical Debt Service Coverage Ratio of the Borrower (as defined in APPENDIX D hereto) (calculated by including the maximum annual debt service with respect to the Additional Bonds in the amount of Debt Service Requirements (as defined in APPENDIX D hereto) used in determining the Historical Debt Service Coverage Ratio) for the two preceding Fiscal Years was at least 1.25, or

Redemption of Bonds Upon a Determination of Taxability. The Bonds are subject to special mandatory redemption, at a redemption price of 103% of the principal amount of the Bonds being redeemed, plus accrued interest, if any, to the redemption date, not later than 180 days after the occurrence of a Determination of Taxability.

A "Determination of Taxability" means a determination that the interest payable on any of the Bonds is includible for federal income tax purposes in the gross income of the holder thereof, which determination shall be deemed to have been made with respect to a Bond upon the occurrence of the first of the following events: (a) the date on which the Borrower or a Guarantor determines that the interest payable on the Bonds is includible for federal income tax purposes in the gross income of the holders thereof; (b) the date on which the Internal Revenue Service issues any private ruling, technical advice or any other substantially equivalent written communication to the effect that the interest payable on the Bonds is includible for federal income tax purposes in the gross income of the holder thereof; (c) the date on which the Borrower and/or a Guarantor shall receive notice from the Trustee in writing that the Trustee has been advised in writing by the holder of the Bonds that the Internal Revenue Service has issued a 30-day letter or other formal written determination (a copy of which shall have been provided by such holder to the Trustee) which asserts that the interest payable on the Bonds is includible for federal income tax purposes in the gross income of the holder; or (d) the date on which the Trustee receives written notice that the Borrower or a Guarantor has taken any action or has failed to take any action the effect of which is to cause the interest payable on the Bonds to become includible for federal income tax purposes in the gross income of the holder thereof; provided, however, that in the event of a good faith appeal, protest or contest to the Internal Revenue Service or any court, governmental agency, authority or arbitrator, as appropriate, or the filing with the Internal Revenue Service of a request for ruling or other advice initiated by the Borrower or a Guarantor within 60 days after the earlier of the dates referred to in clauses (b), (c) or (d) above, no Determination of Taxability shall be deemed to have occurred until the date upon which all such appeals, protests, contests, or requests pursued with due diligence by the Borrower or the Guarantors have been exhausted.

Procedure for Redemption

Official notice of redemption will be given by the Trustee on behalf of the Issuer by mailing a copy of an official redemption notice by first class mail, postage prepaid, to the registered owner of each Bond to be redeemed, at the address of such registered owner shown on the Bond Register, not less than 30 nor more than 60 days prior to the date fixed for redemption. Failure to duly give official notice of redemption by mail or any defect therein will not affect the validity of the proceedings for the redemption of any Bond or Bonds.

Except for a mandatory sinking fund redemption, prior to the date that a redemption notice is first mailed, funds shall be placed with the Trustee to pay the principal of such Bonds and accrued interest thereon to the redemption date and the premium, if any, or such notice shall state that any redemption is conditional on such funds being deposited with the Trustee on the redemption date and that a failure to make such deposit shall not constitute an event of default under the Indenture. Upon the happening of the above conditions (and the deposit of sufficient funds in the case of a conditional notice), the Bonds, or portions thereof, thus called for redemption will not bear interest after the applicable redemption date, will no longer be protected by the Indenture and will not be deemed to be outstanding under the provisions of the Indenture.

Selection of Bonds to be Redeemed

Except as otherwise provided in the Indenture, if less than all the Bonds are called for redemption, the Bonds to be redeemed will be selected by the Trustee in inverse order of maturity and, within a maturity, by lot. To the extent possible, the Trustee will select Bonds for redemption such that the principal amount of each Bond remaining Outstanding after such redemption is an Authorized Denomination.

In case part but not all of an Outstanding Bond are selected for redemption, the registered owner thereof or his attorney or legal representative will present and surrender such Bond to the Trustee for payment of the principal amount of such Bond so called for redemption, and the Issuer will execute and the Trustee will authenticate and deliver to or upon the order to such registered owner or such registered owner's attorney or legal representative, without charge therefore, for the unredeemed portion of the Bond so surrendered a Bond of the same maturity and bearing interest at the same rate.

Registration, Transfer and Exchange

The Trustee as Registrar will cause a Bond Register to be kept for the registration of transfers of Bonds. Any Bond may be transferred only upon an assignment duly executed by the registered owner or such registered owner's duly authorized representative in such form as shall be satisfactory to the Registrar, and upon surrender of such Bond to the Trustee for cancellation. Whenever any Bond or Bonds are surrendered for transfer at the designated office of the Trustee, the Issuer will execute and the Trustee will authenticate and deliver in the name of the transferee or transferees a new fully registered Bond or Bonds, without coupons, of the same series and maturity and of authorized denominations for the aggregate principal amount which the registered owner is entitled to receive.

Any Bond may, in accordance with its terms, be exchanged, at the office of the Trustee, for a like aggregate principal amount of Bond or Bonds, of the same series and the same maturity, of any authorized denomination or denominations. The execution by the Issuer of any Bond shall constitute full and due authorization of such Bond, and the Trustee shall thereby be authorized to authenticate, date and deliver such Bond.

All Bonds presented for transfer or exchange shall be accompanied by a written instrument or instruments of transfer or authorization for exchange, in form and with guaranty of signature satisfactory to the Trustee, duly executed by the registered owner or by such owner's duly authorized attorney.

No service charge shall be imposed upon the owner of any Bond for any exchange or transfer of Bonds. In all cases in which Bonds are transferred or exchanged under the Indenture, the Trustee may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such transfer or exchange.

All Bonds issued upon any transfer or exchange of Bonds will be the valid obligations of the Issuer, evidencing the same debt as the Bonds surrendered, will be secured by the Indenture and will be entitled to all of the security and benefits under the Indenture as the Bonds surrendered upon transfer or exchange. Neither the Issuer nor the Trustee will be required to make any exchange or transfer of a Bond during a period beginning at the opening of business 15 days before (i) any Interest Payment Date (including any special interest payment date described in the Indenture), or (ii) the day of the mailing of a notice of redemption of Bonds and ending at the close of business on the day of such mailing or such Interest Payment Date, or to transfer or exchange any Bonds selected for redemption, in whole or in part.

The person in whose name any Bond is registered will be deemed and regarded as the absolute owner of such Bond for all purposes, whether or not such Bond shall be overdue, and shall not be bound by any notice to the contrary. All payments of or on account of the principal of and premium and interest on any such Bond will be made only to or upon the written order of the registered owner thereof or his legal representative, and neither the Issuer nor the Trustee will be affected by any notice to the contrary. All such payments will be valid and effectual to satisfy and discharge the liability upon such Bond to the extent of the sum or sums to be paid.

Book-Entry Only System

The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for the Bonds, in the aggregate principal amount of such issue, and will be deposited with DTC.

DTC, the world's largest depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 2.2 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments from over 100 countries that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC, in turn, is owned by a number of Direct Participants of DTC and Members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation and Emerging Markets Clearing Corporation (NSCC, FICC, and EMCC, also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has Standard & Poor's highest rating: AAA. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's Procedures. Under its usual procedures, DTC

mails an Omnibus Proxy to Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and dividend payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detailed information from Issuer or Trustee, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC nor its nominee, Trustee, or Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Issuer or the Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Bonds at any time by giving reasonable notice to the Issuer or the Trustee. Under such circumstances, in the event that a successor securities depository is not obtained, Bond certificates are required to be printed and delivered.

The Borrower, with the consent of the Issuer, may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the Issuer believes to be reliable, but Issuer takes no responsibility for the accuracy thereof.

SECURITY AND SOURCES OF PAYMENT FOR THE BONDS

General

The Bonds are special limited obligations of the Issuer, payable solely from and secured by (i) amounts paid by the Borrower under the Loan Agreement, (ii) an assignment of all of the Issuer's rights (except for Unassigned Rights) under the Loan Agreement, and (iii) a pledge of and security interest in any right, title and interest of the Issuer in and to all moneys and investments held in the funds and accounts established under the Indenture (excluding the Rebate Fund). The Bonds are also secured by the Guaranty and by the Leasehold Mortgage. The obligations of the Borrower under the Loan Agreement are nonrecourse to the Issuer and are enforceable only against the Borrower, the Project and the revenues therefrom. NEITHER THE FULL FAITH AND CREDIT NOR THE TAXING POWER OF THE ISSUER, THE STATE OF ILLINOIS OR ANY POLITICAL SUBDIVISION THEREOF IS PLEDGED TO THE PAYMENT OF THE BONDS. THE ISSUER HAS NO TAXING POWER.

Rate Covenant

The Borrower and the Guarantors have covenanted and agreed to maintain a fee and rate structure for the Project (together with other revenues of the Borrower and the Guarantors) which will insure that, as of the end of each fiscal year of the Borrower and the Guarantors, the ratio of Income Available for Debt Service for such period to Debt Service Requirements for the same period (the "Debt Service Coverage Ratio"), is not less than 1.25 to 1.0. Such covenant shall be tested annually, based upon the combined audited financial statements of the Borrower and the Guarantors. If the Debt Service Coverage Ratio is less than 1.25 to 1.0, the Borrower and the Guarantors shall retain an Independent Consultant to make recommendations to meet the covenant or, if in the opinion of the Independent Consultant, the attainment of such level is impracticable, to the highest practicable level. If the Borrower and the Guarantors follow such Independent Consultant's recommendations, the failure to achieve the required Debt Service Coverage Ratio will not constitute an Event of Default under the Loan Agreement; provided,

however, that the failure of the Borrower and the Guarantors to have, at the end of any fiscal year, a Debt Service Coverage Ratio for such fiscal year of not less than 1.00 to 1.00 will constitute an Event of Default under the Loan Agreement.

Guaranty

Under the terms of the Guaranty, the Guarantors have jointly and severally agreed to make payments of principal of and premium, if any, and interest on the Bonds should revenues derived from the Indenture and the Loan Agreement not be sufficient to make such payments. Certain provisions of the Guaranty are summarized in APPENDIX D.

Leasehold Mortgage

As additional security for the obligations of the Borrower under the Loan Agreement for the payment of the Bonds, the Borrower has granted to the Trustee, for the benefit of the Bondholders, a mortgage on the Borrower's leasehold interest in the Project and a security interest in fixtures, equipment and all other personal property at the Project, as evidenced by the Leasehold Mortgage. Certain provisions of the Leasehold Mortgage are summarized in APPENDIX D.

Funds and Accounts

Funds and Accounts. The Indenture establishes the following Funds and Accounts in connection with the issuance of the Bonds:

(a) Project Fund;

(b) Expense Fund;

(c) Revenue Fund;

(d) Repair and Replacement Fund;

(e) Interest Fund;

(f) Bond Sinking Fund;

(g) Optional Redemption Fund;

(h) Debt Service Reserve Fund; and

(i) Operation Reserve Fund.

Use of Funds. The Trustee is required to make the following payments or deposits and/or withdrawals in or out of the following funds and accounts:

Project Fund. The Indenture establishes a separate account known as the "Project Fund" (the "Project Fund"), to the credit of which a deposit shall be made as required. Any moneys received by the Trustee from any other source for the acquisition, construction and equipping of the Project shall be deposited in the Project Fund unless otherwise specifically excepted hereunder or unless contrary provision is made in the Loan Agreement. The moneys in the Project Fund shall be held in trust by the Trustee, shall be applied to the payment of the costs of the Project and, pending such application, shall be held as trust funds under the Indenture in favor of the holders of the outstanding Bonds and for the further security of such holders until paid out or transferred.

Expense Fund. The Indenture establishes a separate account to be known as the "Expense Fund" (the "Expense Fund"). A deposit to the credit of the Expense Fund will be made and deposits to the credit of the Expense Fund may be made by the Borrower pursuant to the Loan Agreement. Amounts on deposit in the Expense Fund shall be disbursed upon the written request of the Borrower for the payment of any recording, trustee's and depository's fees and expenses, accounting, advisory and legal fees, financing costs (including costs of acquiring investments for the funds and escrows), and other fees and expenses incurred or to be incurred by or on behalf of the Authority or the Borrower in connection with or incident to the issuance and sale of the Bonds. At such time as the

Trustee is furnished with a written request of the Borrower stating that all such fees and expenses have been paid, and in no event later than June 1, 2008, the Trustee shall transfer any moneys remaining in the Expense Fund to the Project Fund.

Revenue Fund. The Indenture establishes a separate account to be known as the "Revenue Fund." The Loan Agreement requires that the Borrower pay to the Trustee for deposit in the Revenue Fund on or before the last day of each calendar month, commencing in the month following the completion of the Project, all Revenues (as defined in APPENDIX D hereto) remaining after (i) the payment of all operating expenses of the Project for such month; (ii) the payment of all routine maintenance and repair expenditures of the Project for such month, to the extent that they constitute operating expenses; and (iii) the retention of an amount necessary, together with other available funds of the Borrower, to pay (a) the operating expenses of the Project and (b) the routine maintenance and repair expenditures for the Project (to the extent that they constitute operating expenses) for the then next succeeding calendar month. All payments, as and when received by the Trustee, will be deposited in the Revenue Fund and held therein until disbursed as described below. Moneys in the Revenue Fund shall be deposited to the various funds established by the Indenture in the following order of priority:

(a) Interest Fund;

(b) Bond Sinking Fund;

(c) Optional Redemption Fund;

(d) Debt Service Reserve Fund;

(e) Repair and Replacement Fund; and

(f) Operation Reserve Fund.

Repair and Replacement Fund. The Indenture establishes a separate account known as the "Repair and Replacement Fund." The Repair and Replacement Fund shall be available to meet capital expenditures relating to the maintenance and/or repair of the Project. The Repair and Replacement Fund shall be invested at the direction of and for the benefit of the Borrower and shall be funded from Revenues at the rate of (i) $5,000 per quarter, on the first day of each quarter, for 20 consecutive quarters, commencing on January 1, 2009 and thereafter until the amount on deposit therein is equal to $100,000 (the "Repair and Replacement Fund Requirement"). Once the balance in the Repair and Replacement Fund is equal to $100,000, no additional deposits shall be made until the balance of the Repair and Replacement Fund is reduced below $100,000, at which point it shall be funded from deposits to the Revenue Fund at the rate of $5,000 per quarter, until the amounts on deposit in the Repair and Replacement Fund is equal to the Repair and Replacement Fund Requirement. Moneys deposited in the Repair and Replacement Fund shall be disbursed to the Borrower from time to time upon receipt by the Trustee of a Written Request of the Borrower.

Interest Fund. The Indenture establishes a separate account known as the "Interest Fund". Initial deposits shall be made to the Interest as provided in the Indenture to pay capitalized interest on the Bonds through February 1, 2009.

The Trustee shall deposit to the Interest Fund from Revenue Fund moneys an amount equal to the interest to become due on the Bonds during the current Bond Year. No deposit pursuant to this paragraph need be made, however, to the extent that there is a sufficient amount already on deposit and available for such purpose in the Interest Fund to be applied to all interest payments due in such Bond Year. Moneys on deposit in the Interest Fund and other funds created under the Indenture, must be used to pay interest on the Bonds as it becomes due.

In connection with any partial redemption or defeasance prior to maturity of the Bonds, the Trustee may, at the written request of the Borrower, use any amounts on deposit in the Interest Fund in excess of the amount needed to pay the interest on the Bonds remaining outstanding during the current Bond Year after the date of such redemption or defeasance to pay the principal of and interest on the Bonds to be redeemed or defeased.

Bond Sinking Fund. The Indenture establishes a separate account to be known as the "Bond Sinking Fund."
